

About the Journal

Bioingene Plant Science Journal (*Bioingene PSJ*) is an online, international, open access, peer reviewed scientific journal. It is completely online. We seek to publish papers that are relevant in the fields of plant science research, and address the present and near future scenarios of crops health, yield and production in different biotic and abiotic challenges. Aspects like food security, nutritional security, effects of climate change, crop resilience, application of AI in agriculture, genome sequencing, genome editing, omics technologies, CRISPR-Cas, modern breeding techniques in plant science, but not limited to, will be highlighted in this journal. Selection of manuscripts for publication will be based on novel research, original data, syntheses, or concepts without plagiarism and violation of any copyright. We welcome submissions from all fields of plant science including agriculture, and from any source.

Manuscripts should be submitted initially in a single combined PDF (including text, table, and figure) through our [Manuscript Submission Google Form \[https://forms.gle/UmHbtDRJuaktK32f8\]](https://forms.gle/UmHbtDRJuaktK32f8). Papers are assigned to an Associate editor who has knowledge of the manuscript's field-of-study. The submitted papers are rated for suitability by reviewers. Authors of papers that are not selected for review are notified promptly, within two weeks. The editorial staff at *Bioingene PSJ* has sole discretion on considering the article for publication.

Our mission:

Our mission is to bring good quality peer reviewed plant science research, source verified authentic information and knowledge to the international readers. Through this open access journal, plant researchers can publish their research, concepts, ideas that will gain recognition by global peers and readers. *Bioingene PSJ* will keep its readers updated about the current challenges in plant science research and agriculture and the potential research that are ongoing to overcome these challenges.

Our vision:

To move forward through collaboration towards creating a high impact, open access peer reviewed and reputed mainstream journal for plant science and agricultural research. We strive to maintain quality and consistency for the *Bioingene PSJ*.

Author guidelines: We follow similar guidelines as Frontiers Media, Switzerland. For the figures, table, units please follow <https://www.frontiersin.org/about/author-guidelines> Upon initial consideration of any manuscript for *Bioingene PSJ*, the specific guideline with

suggestions and comments will be emailed to the corresponding author(s) of the manuscript.

Language Style:

Bioingene PSJ follows British English. For more details on style, please follow the Chicago Manual of style (<https://www.chicagomanualofstyle.org/home.html>).

Licence:

Bioingene PSJ follows Creative commons CC-BY 4.0 licence for all display items (figures, tables, and images). It is the author's responsibility to acquire licenses if they use any items of third party right holders and cover any supplementary charges.

Target audience:

International undergraduate and postgraduate students, researchers, PhD researches, postdocs, teachers, professors, scientists and plant science enthusiasts. We already have a large database on these groups of people from around the world, who joined us in our Bioingene webinars. About 18K+ people in the Bioingene's Google group will be our first readers. Our 9K+ subscribers in YouTube and 5.5K+ followers in Facebook, 4.4K+ connection in LinkedIn will also be our strength and could be the regular readers for the journals.

Editorial Board: International editorial board (list will be available on website)

Article Processing Fee: None
